

# Progility Technologies

## Quality and Environmental Policy

### Our Quality Commitment

Progility Technologies (Progility) is committed to providing high quality and cost-effective communication technology solutions and support which meet or exceed customer expectations.

We ensure our processes, products and services comply with all contractual, statutory, and regulatory requirements.

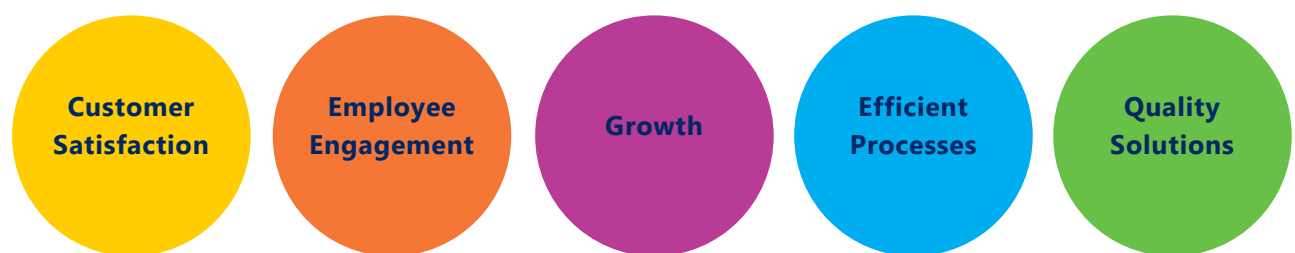

To support this commitment, our Quality Management System reflects our culture of continuous improvement.

### Our Environmental Commitment

Progility is committed to an environmentally conscious workplace, with a goal of minimising the environmental impact of our business.

We comply with all relevant environmental compliance regulations and aim towards zero harm to our environment.

### Our Strategic Goals

### Our Leadership Commitment
